DETAILED ACTION

Allowable Subject Matter

1. Claims 2-5, 7 and 8 are allowed.

Claims 5 and 7 were indicated to be allowable in the previous office action.

Claims 3 and 8 were previously objected as being allowable if rewritten in independent form. Applicant has done this and thus claims 3, 8 and its dependent claims are allowed.

With respect to claims 2 and 4, applicant arguments presented *on page 8 the last full paragraph and page 9 the first paragraph* of applicant's response are found persuasive because the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "*a plumber block slidably holding the fuel oil supply pipe such that the plumber block allows the rear end portion of the fuel oil supply pipe to be slidably displaced in the axial direction due to thermal expansion or compression (for claim 2); the rear end portion is slidably held such that the rear end portion is slidably displaced in the axial direction due to thermal expansion or compression (for claim 4)*" in combination with the other claims limitations. Thus, claims 1, 4 and its dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claims

The claims will be renumbered in the issued patent as follows.

Claims 2-5, 7 and 8 will be renumbered as claims 1-6 respectively.
